# GUIDELINES FOR THE ANNUAL CONCRETE AWARDS

## NOMINATIONS CRITERIA

1. The concrete related project shall be completed in North Carolina or South Carolina **between January 1, 2015 – May 31, 2017**.
2. Project design and construction shall represent the best concept, originality and applicability of concrete or depict advancement of knowledge and practices in the field of concrete construction.
3. The project may be:
  - a. A cast-in-place structure / pavement
  - b. A pre-cast / site-cast structure
  - c. A pre-stressed / post-tensioned concrete structure
  - d. A structure employing a steel frame provided a significant percentage of concrete is used in a creative and innovative manner
4. Concrete masonry does not qualify for the concrete awards competition.
5. The size of the project or volume of concrete used in the project will not be a factor as the judging process takes place.
6. No limit to the number of entries a company can submit.
7. ACI members and non-members are eligible.
8. Award winners may be requested to furnish additional presentation material (images and descriptions) for the Awards Banquet scheduled for Tuesday, September 12, 2017 at the Charlotte Motor Speedway, Concord, NC.
9. All submittals shall become the sole property of the Carolinas Chapter of the American Concrete Institute. Two projects that receive awards from the Carolinas Chapter may be entered into the National ACI Excellence in Concrete Construction Awards competition.

## SUBMITTALS MUST INCLUDE THE FOLLOWING:

1. **Project Nomination Application** including Contact information for all Project Team Participants.
2. **Digital Pictures Of The Project** (6 Min. – 10 Max). Try to include pictures of the project under construction as well as completed. **All pictures must be digital.** A video can also be submitted.
3. A **Written Description Of The Project** (maximum 300 word count). The description must indicate, describe and emphasize the architectural, engineering, construction method or workmanship areas of the project which are significant and noteworthy.
4. A **Written Description Of Concrete Usage** (maximum 500 word count). Please include a full description of how you feel that concrete was effectively utilized in the project, for example, to meet the end user requirements of the owner, to shorten the schedule, for sustainability, etc.
